DETAILED ACTION

The Information Disclosure Statement

The prior art cited in the information disclosure statement filed on September 26, 2003 has been considered.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In line 2 of claims 10, 11, 13 and 15, "photodiode" has been changed to --photodetector-- to make the terminology used in the claims consistent. The claims lacked antecedent basis for "said photodiode".

Allowable Subject Matter

Claims 1-16 are allowed over the prior art of record.

Examiner's Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 12, the prior art of record, taken alone or in combination, fails to disclose or render obvious a monolithic MEMS spectrophotometer in which the optical fiber, the grating and the photodetector are on a Rowland circle, in combination with the rest of the limitations of claims 1 and 12.

Art Unit: 2877

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
